SCOPE AND CONTENT NOTE

This collection includes information cards that list the name, next of kin information, enlistment or induction date, and location assignments of those serving in the military. Not all cards have all fields completed. The majority of people represented in the cards are Bridgewater residents or are assumed to have a connection to Bridgewater. Gold stars indicate individuals who died during military service.

The majority of the cards are for World War II, but military service dates as early as 1901 appear. Because the majority of the cards (including those with dates in the early 20th century) have World War II printed on them, it is assumed the Town of Bridgewater began recording military service during World War II, and earlier cards were added retroactively.

The following individuals have information cards:
